## SUMMARY

Passionate and detail-oriented Software Engineer with hands-on experience building **production-grade web applications** using **.NET, React.js, Node.js, PostgreSQL, and REST APIs**. Proven ability in **problem-solving, debugging, and troubleshooting** complex software issues. Strong foundation in **Object-Oriented Programming, Data Structures, Algorithms, and MVC Architecture**. Excellent communicator with demonstrated ability to collaborate effectively in team-oriented environments and incorporate feedback to improve code quality.

## EDUCATION

**B.Tech in Information Technology**

2022 – 2026

JD College of Engineering and Management, Nagpur

CGPA: 8.77

## EXPERIENCE

**Associate Software Engineer**

Dec 2025 – Present

*Willovate Private Limited*

- Developed and maintained **production-grade modules** for **Willovate Resto** using **.NET, React.js, PostgreSQL, REST APIs**, and **MVC architecture**.
- Designed and implemented **real-time inventory management** features for **stock tracking, purchase management, and low-stock monitoring** with accurate documentation.
- Developed **POS (Point of Sale)** workflows for **order management, billing, payment processing, and invoice generation**.
- Built **reservation and table management** modules enabling **table allocation, customer booking, and queue management**.
- Independently developed and deployed **Willovate Studio**, a complete **WhatsApp marketing** and customer engagement platform, demonstrating full ownership of development lifecycle.
- Built **WhatsApp template workflows** with **Meta approval integration** and automated synchronization.
- Developed **contact management** features including **CSV import, audience segmentation, customer filtering, and tag management**.
- Implemented **wallet, billing, subscription, and WhatsApp credit management** modules.
- Developed **campaign analytics dashboards** and **delivery reports** with performance optimization.

## PROJECTS

**Merge – Developer Collaboration Platform**

Live | GitHub

*React.js, Node.js, PostgreSQL, Prisma ORM, Socket.io, Razorpay*

- Built a **full-stack developer collaboration platform** with authentication, developer matching, real-time messaging, projects, hackathons, community, and gig marketplace using modern web technologies.
- Developed **AI-powered assessment engine** that generates coding challenges and awards verified skill badges, demonstrating problem-solving and algorithm expertise.
- Implemented secure **Razorpay payment integration** for premium subscriptions.
- Designed scalable **REST APIs** and optimized **PostgreSQL database schema** using Prisma ORM following best practices.
- Built real-time features using **Socket.io** for instant messaging and live collaboration.
- Developed project recruitment, hackathon management, community engagement, and gig marketplace modules.

## TECHNICAL SKILLS

**Languages:** C#, JavaScript, TypeScript, Python

**Backend:** .NET, ASP.NET Core, Node.js, Express.js, REST APIs

**Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS

**Databases:** PostgreSQL, MongoDB, Prisma ORM, Entity Framework Core

**Development Tools & Version Control:** Git, Visual Studio Code, Visual Studio, Docker, Linux

**Architecture & Patterns:** MVC (Model-View-Controller), Clean Architecture, OOP, Microservices

**Core CS Fundamentals:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, SDLC

**Soft Skills:** Problem-solving, Debugging, Troubleshooting, Technical Communication, Team Collaboration, Code Review, Continuous Learning

**Concepts:** System Design, Authentication, Real-time Features (WebSockets), Payment Integration, Agile Development, CI/CD
